

Large group tour? Come visit us!

- Discover the best of Italian countryside charm as you walk through the large wrought iron gates of Santa Maria Vineyard, Winery and Restaurant. Here you will be treated to some of Santa Maria's most popular hand-crafted wines as John and Rose share their story of how prayer and faith guided them to this beautiful location along the Old Lincoln Highway.
- Marvel at how a Depression Era gas station, large car repair shop, and a one-time Model T automobile production facility were transformed into what Midwest Living Magazine rated as "One of the Top Ten Places To Eat in the Midwest".
- Enjoy a personal tour of the Tank Room where over 12,000 cases of wine are made yearly on the very same floors that housed the Model T's. Hear the history of the Iowa Wine Industry and get a sneak peek of the cellar room to see how the wines are made and stored in old oak barrels.
- Take in the sights, sounds and smells of Old World ambiance as you are guided through the beautifully restored Tasting Room and Restaurant, the large outdoor courtyard that tantalizes you with wood-fired pizza and steaks on the grill, and the beautifully unique Banquet Rooms with wine-barreled ceilings, an indoor Tuscan Bridal Balcony, and not-to-be missed bas relief on the St. Martin's Room wall.

Come hear the rest of our story, and maybe, just maybe, you will create one of your own!
